CHANGE will grope at the readers innermost notions, calling and holding attention like a moth to a flame, and with its fascinating slideshow of enigmatic photos, will invoke a slumbering awareness to come to life. What, exactly, is change about According to the authors fusion of celebrated concepts, change begins with one person like a pebble thrown into the pond creating a wave of ripples that grow bigger the farther it goes. Thus, change begins with oneself, as the author applies in his daily life. Through this book, John Lee Bittner hopes to create a ripple that will grow from personal to global-until the world as we know it, for we do not truly know beyond this world, becomes a more pleasant place for everyone to exist in. Life on earth has come a long way, and yet the road to the future is long and wide. Theres still a lot of possibilities. John Lee Bittner calls on everyone to take care of each other and of the earth for the generations to come. This item ships from multiple locations.
