When I host book signings and give lectures on lottery prediction, people always ask, If lotteries are random draws, how can they be predicted I always answer the same way. Lotteries are predictable because we have the ability to redirect subtle energy. With about 20 to 30 people present, I always ask how many are familiar with subtle energies. No one has ever raised their hand. And, why should they! Its only been within the last 30 to 40 years that Science discovered subtle energies and their role in manifesting human desire. Its only been within the last 10 years that this research and experimentation has been available to the general public in books like Lynne McTaggart's The Intention Experiment or Dr. Tillers Conscious Acts of Creation. As a matter of fact, it has only been this year (2013) that Dr. Peter Higgs won the Nobel Prize for his work on the God Particle. The first subtle energy particle ever found at the new CERN accelerator. With these discoveries and experiments on the redirection of subtle energy, Scientists believe that a new technology has been born. Significantly more powerful than electromagnetic energy, significantly more powerful than nuclear energy, subtle energy technology will bring about new ways for human populations to interact, and new ways to communicate. It will significantly change our health care industry and influence the movement towards world peace. Most interesting, are the time and space attributes of subtle energy that allow the human mind to predict the future and consequently win lotteries. In the science of Quantum Mechanics, experimenting at the level of subtle energy, scientists found that their observations were affecting the outcome of...
