Do you still watch those old horse movies that you've seen a dozen times, just for the scenes of the horse galloping in slow motion? Do you hold your breath just a bit? Do you get something in your eye? It's because horses embody so much more than muscle and bone. They evoke a full range of emotions like hope and courage and valor. They can gallop straight to you with neck arched and tail flagged, and then instantly melt to a stop--just to share your breath. We've been besotted with horses since they had three toes. These short essays are geared as much toward attitude as technique, and include topics ranging from reading calming signals from your horse to using breath as your best communication tool. Blake's writing uses clear descriptions, storytelling, and humor to inspire meaningful, positive communication. Less correction and more direction. Horses are honest; they answer us in kind. If we want a better response, a more fluid conversation and relationship with a horse, we have to be the ones to change first. The other word for that is leadership.
